HACKATHON BRIEFING

appzoy

# AI Software Hackathon

Team Rosters, Evaluation Rubric & Presentation Guidelines

**4**

**COMPETING TEAMS**

Assigned UI/UX mentors with cross-functional rosters

**100**

**MAX EVALUATION PTS**

8 structured scoring categories & standardized rubric

**10 MIN**

**LIVE STAGE DEMO**

Strictly timed pitches with technical Q&A defense

Event Window: 29 Oct – 31 Oct • Live Demos: Saturday, 31 Oct (Post-Lunch)

# Hackathon Teams & our UI/UX Experts

appzoy

## UI/UX : Aparna

### Team 1

ROSTER

Adithya, Komal, Asif, Aparna T, Zeya, Govind, Avinash, Preetam G, Jhansi

### Team 2

ROSTER

Kavitha, Srushti, Anushka, Kshama, Adarsh, Rajeev, Rohit, Deepak, Shruthi, Praveen

## UI/UX : Sneha

### Team 3

ROSTER

Thara, Alby, Aneesh, Aditya Gupta, Sabarish, Arshi, Dhanush, Pawan, Anusha, Anand

### Team 4

ROSTER

Riddhi, Arya, Daniel, Gothandabani, Faisal, Nikita, Naman, Fawzan, Shraddha

# Evaluation Framework & Category Weights

appzoy

**100**

MAX PTS FRAMEWORK

### Comprehensive Evaluation System

Evaluations are strictly based on eight discrete criteria totaling 100 maximum points, split into primary engineering weights and technical execution capabilities.

## 15-Point Categories (60 Pts Total)

**15 PTS**
Challenge Alignment & Requirements

**15 PTS**
AI Architecture & Technical Depth

**15 PTS**
Software Engineering & Integration

**15 PTS**
Live Demo Execution & Reliability

## 10-Point Categories (40 Pts Total)

**10 PTS**
Innovation & Approach Novelty

**10 PTS**
User Experience & AI Interaction

**10 PTS**
Scalability, Security & Responsible AI

**10 PTS**
Presentation Quality & Q&A Defense

# Strict 10-Minute Presentation and Live Demo Format

appzoy

Each team is allotted exactly 10 minutes on stage. Timing is strictly enforced to ensure fairness.

| | |
|---|---|
| 0:00 - 1:30 | Problem & Value Proposition |
| 1:30 - 3:30 | Architecture & Technical Approach |
| 3:30 - 6:30 CRITICAL | **Live System Demonstration**<br>Execute a real-time, functional demonstration. Static slides or pre-rendered videos will incur scoring penalties. |
| 6:30 - 8:00 | Engineering Trade-offs & Future Roadmap |
| 8:00 - 10:00 | Live Q&A and Technical Defense |

# 5-Point Performance Rubric for Standardized Scoring

appzoy

Judges score each criterion using a standardized 5-point performance rubric.

| | |
|---|---|
| 1 | **Level 1 (Unsatisfactory)**<br>Non-functional systems or missing core requirements. |
| 2 | **Level 2 (Developing)**<br>Partial implementation relying heavily on superficial wrappers. |
| 3 | **Level 3 (Proficient)**<br>Requires a complete, functional system meeting baseline requirements. |
| 4 | **Level 4 (Advanced)**<br>Demands a robust, polished implementation demonstrating deep technical sophistication. |
| 5 | **Level 5 (Exemplary)**<br>Reserved for production-grade execution, novel architecture, and a flawless live demo. |

# Final Judging Process & Pre-Flight Preparation

appzoy

JUDGING STRATEGY

### Voting Judges Point Allocation

- **1st Rank:** 3 points
- **2nd Rank:** 2 points
- **3rd Rank:** 1 point

## Tie-Breaker Mechanism

### Dedicated Tie-Breaker Judge

A dedicated tie-breaker judge ranks all participating teams comprehensively to immediately resolve any point ties across the overall scoreboard.

PRE-FLIGHT CHECKLIST FOR TEAMS

## Mandatory Demo Requirements

**Fallbacks**

- Prepare local model instances or cached mock API responses to guard against network outages.

**Staging**

- Pre-populate test inputs beforehand to maximize impact and save live demo time.

**Visibility**

- Set browser zoom levels to at least 125% for clear readability during projection.

**UX Delays**

- Implement clear visual indicators for latency and inference processing delays.

# Hackathon Timeline & Key Milestones

appzoy

Key dates, working sessions, and presentation schedule for all participating teams.

| | |
|---|---|
| **START**<br>**29 Oct (Now)** | **Hackathon Kickoff & Challenge Release**<br>Appzoy AI Software Hackathon starts now. Complete the Next Steps to receive the official challenge brief, judging sheet, and guidelines. |
| **BUILD**<br>**29 Oct – 31 Oct, 9 AM** | **Development Window & Collaboration**<br>Teams collaborate to complete the challenge between now and Saturday morning 9:00 AM, without affecting existing planned activities. |
| **POLISH**<br>**31 Oct, 9 – 10 AM** | **Final Touches & Demo Set-up**<br>One hour dedicated for teams to give final touches, test environments, and keep the setup for live presentation and demo ready. |
| **BRIEF**<br>**31 Oct, Morning** | **Presentation Order Announcement**<br>Details regarding the order of final presentations will be decided by Prakash and communicated during the Saturday morning session. |
| **DEMO**<br>**31 Oct, Post-Lunch** | **Final Presentation & Live Demos**<br>Teams pitch and demonstrate live systems in their allocated slot as per the overall event schedule. |

# Next Steps for Participating Teams

appzoy

Immediate post-kickoff milestones required to formalize team registration and receive challenge assets.

1

**Agree on team name**

Collaborate internally with your assigned team members to decide and finalize your official team name.

2

**Identify the team leader**

Select a primary point of contact to coordinate development, manage deadlines, and liaise with organizers.

3

**Team leader shares details with Prakash**

Once finalized, the designated team leader submits the confirmed team name and leadership details directly to Prakash.

4

**Receive Challenge, Judging Sheet & Guidelines**

Prakash shares the official Team Challenge, Judging Sheet, and Guidelines with the team leader.
